HARE

Campaign of 1779

Western New York

P. 40

A General Court Martial will sit Tomorrow Morning 9 O'Clock at the Presidents Wagon, for the Trial of Mr. Henry Hare, taken on Suspicion of being a Spy.

P. 41

Camp, Canajohary Creek,  
June 20, 1779

At a General Court Martial held at Camp Canajohary, June 20,  
whereof Col. Gansevoort was President. Mr. Henry Hare was tried for  
burking about the Camp as a Spy, found Guilty, and sentenced  
to be hanged by the Neck till he is dead. At the same Court  
Martial, was tried Daniel McKenny, found guilty of the  
Charge, and sentenced to be hanged  
for endeavouring to seduce Soldiers to desert, found  
guilty of the Charge, and sentenced to receive one hundred  
lashes on his bare Back well laid on, and drummed out of the  
Camp. The General approves of the Sentences, and orders them  
to put in Execution Tomorrow Morning at 9 O'Clock, for  
which the Troops will be under Arms at half after eight  
O'Clock, and Col. Yates, Qr. Master General, will make the  
necessary Preparations for the Execution.

1. Gen. Clinton, in writing to Mrs. Clinton, July 6th, alluded to the Execution of these Spies as follows:

"I have Nothing further to acquaint you of, except that we apprehended a certain Lieut. Henry Hare, and a Sergeant Newbury, both of Col. Butler's Regiment; who confessed that

Page 100  
The first of the series of experiments was made on the 1st of June 1881. The object of the experiment was to determine the effect of the temperature of the water on the rate of the reaction. The experiment was made in a glass vessel of 100 c.c. capacity. The water was heated to 40°C. and the reaction was started by the addition of a small quantity of the reagent. The rate of the reaction was determined by measuring the volume of gas evolved in a given time. The results of the experiment are given in the following table:

Temperature of water (°C.)	Volume of gas evolved (c.c.)
40	1.5
30	1.0
20	0.5
10	0.2

The results show that the rate of the reaction increases with the temperature of the water. This is in accordance with the law of mass action, which states that the rate of a chemical reaction is proportional to the product of the concentrations of the reacting substances. The increase in the rate of the reaction with temperature is due to the fact that the molecules of the reacting substances have more energy at higher temperatures, and therefore they are more likely to collide with sufficient energy to overcome the energy barrier of the reaction.

HARE

They left the Seneca Country with sixty-three Indians, and two White Men, who divided themselves into three Parties; one Party was to attack Schoharie, another Party Cherry Valley and the Mohawk River, and the other Party to skulk about Fort Schuyler and the upper Part of the Mohawk River: to take Prisoners or Scalps. I had them tried by a General Court Martial for Spies, who sentenced them both to be hanged, which was done accordingly at Canajoharie, to the Satisfaction of all the Inhabitants of that Place, who were Friends to their Country, as they were known to be very active in almost all the Murders that were committed on these Frontiers. There were Inhabitants of Tryon County, ~~and~~ had each a Wife and several Children, who came to see them, and beg for their lives."

Henry Hare resided before the War, in the present Town of Florida, a few miles from Fort Hunter. Wm. Newbury lived about three miles from Hare's towards the present Village of Glen. The latter had been an active Participant in the Massacre at Cherry Valley, as was proven upon the Trial. Hare and Newbury had been visiting their Friends, and were several Days concealed in their own Dwellings. The former had left Home before daylight to return to Canada, and was to call for his Comrade on the Route.

Major Munkirk having been informed of their Presence in the Neighborhood, procured their Arrest. They were being near the present Village of Canajoharie; and the Bones of Newbury and those of Titus, who was shot as a Deserter, were thrown out in the construction of the Erie Canal. The body of Hare was delivered to Friends for Burial.

Newbury was not executed until June 28<sup>th</sup>

p. 49

At the same Court Martial (at Canby's Creek, June the 20th, and held by Adjournment to the 23rd, whereof Col James Cook was President, William Mackay, formerly an Inhabitant of this Country, now a Sergeant in the British Service was tried for lurking about the Vicinity of the Camp as a Spy, found Guilty, and sentenced to be hanged by the Neck 'till he is dead.

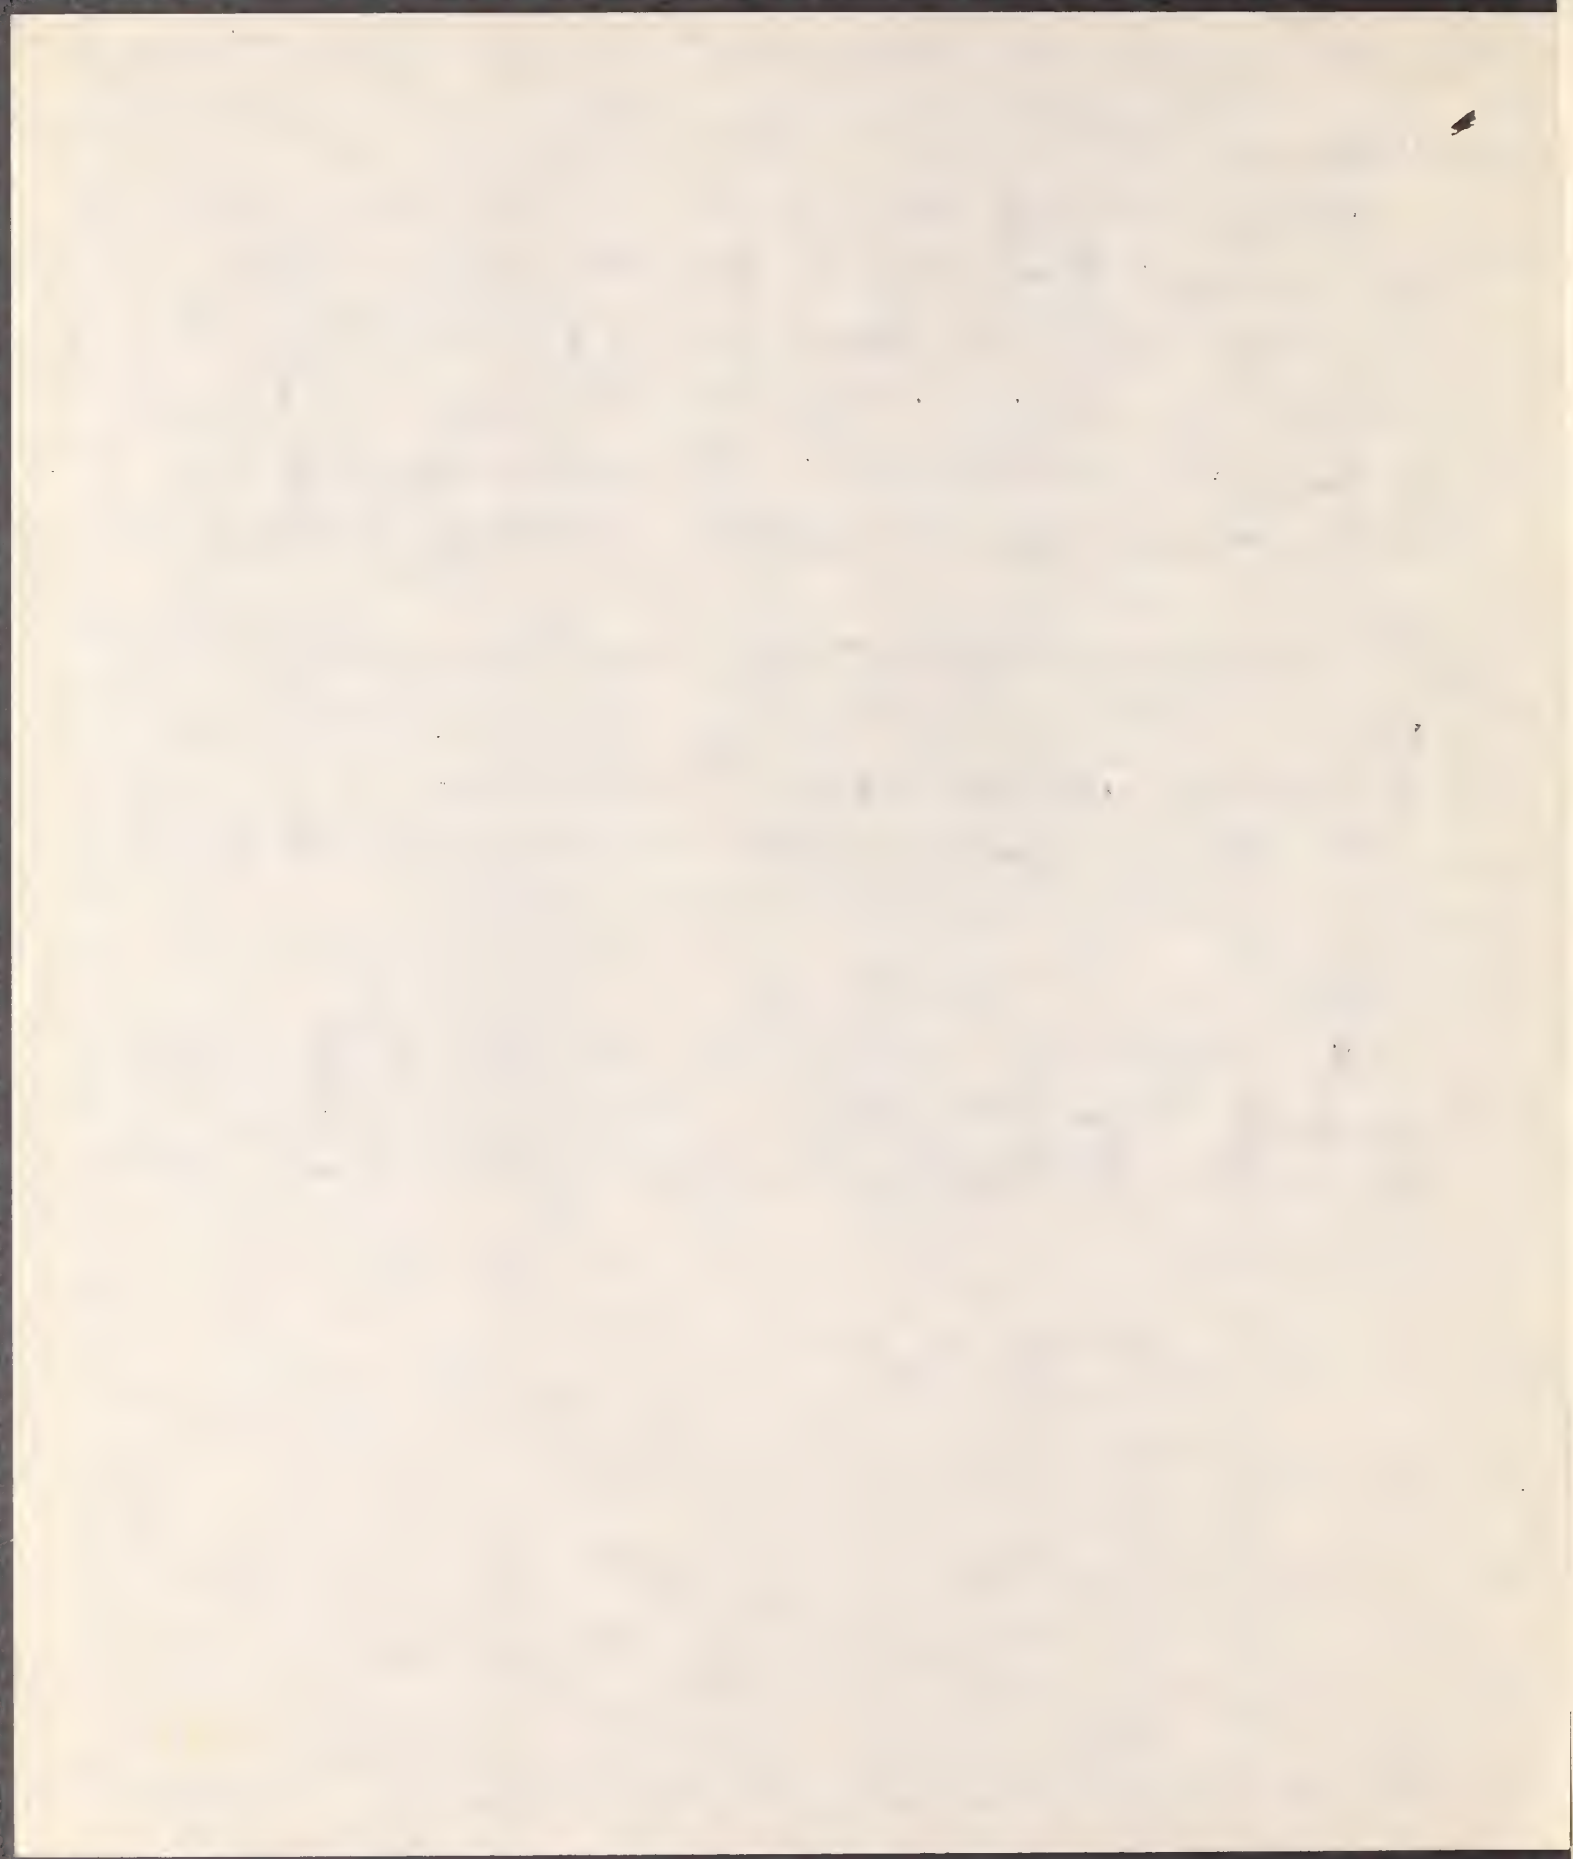

At the same Court Martial, James Titus, Soldier in the 5th N. York Regt. was tried for Desertion, found Guilty, and sentenced to be shot at the Head of his Regiment.

The General approves the Sentence, and orders it to be put in Execution Tomorrow Morning at 6 O'Clock.

\* Note

Titus was buried near the Place of Execution. A Skeleton, supposed to be that of Titus & Hare (Newbury), was found in excavating the Erie Canal, long afterwards. — Sumner's Schoharie Co., p. 298

Dear Dr. Burleigh,

I thank you very much for assembling data relative to the Harris. There is so much that I'm still reading and recognizing that the task has just begun.

I believe it is quite possible that Richard Harris first wife was Rachel Ferguson and would be interested in your further information re her father. Richard and brother. You may have a copy

I am now retired and hope to camp in B. Edwards Co. soon <sup>in a day or so</sup> to see what I can dig up. What suggestions would you have as a basis of study. I will probably at that time try to contact you. Your continued interest is solicited.

I am enclosing check for \$25.00 as a beginning.

Love

Yours sincerely,

Harold A. Day

21 June, 1945.

Dear Mr. Ware:

I forgot to enclose a list of the children of Mr. Ware, U. S. This I now do in order to show you that your Michael and John Ware were not his children.

William Ware of Flabore West.	210 acres by Deed of Conveyance	20 May, 1877.
son John of Flabore West	do	2 May, 1890.
" James A. "	do	17 May, 1891.
son William of Flabore West	do	3 May, 1894.
son Mary Ann, wife of James Ware, died May, 1894.		
son William of Flabore West	210 acres by Deed of Conveyance	2 May, 1892.
" Samuel L. "	do	2 May, 1894.
son William of Flabore West	do	11 May, 1894.

There seems to be, in my mother's library, some papers in or about the children of Mr. Ware, who was the son of Mr. Ware, U. S. I still feel that I have discovered the Prince of Wales' name, and that I have located the site of your Michael Ware. It also seems that Michael was not a lordlet, although his children, George and John, were descended from Lordlet Ware and entitled to some portion of the U. S. Association.

It seems to me that you will find much of interest before you can read on your own, particularly also, that of your father and of mother by

1. Obtaining copies of applications for land of  
 (a) land - see a list dated 1877, to be  
 obtained from the Survey, Ottawa. (b) list of  
 of parcels of land in the U. S. of 1877.
2. Search of land records in the Survey, of the county, and, if possible, in the Survey, U. S.
3. Search of land records in that area for further information.
4. Search in the Survey, U. S. for the possibility of there being a  
 land grant.
5. If you agree that John Ware's first (a) son was George Ware, and if  
 you are interested in the family, for father, mother, and children, with  
 a plan for loss of memory. I have a very good plan for the U. S.  
 supplies a good deal of information about them.

I shall be glad to help, if you wish.

Dear Mr. Burleigh:-

- I am not sure of how far in looking through the Stone names on the N.E. that it seemed to me that some Stone seemed the most logical. Others have done a little on the stone tree and have passed on the name of Stephen Stone as the original N.E. Stone. It seemed to me that this name might be from Stephen or Stephen William. Since to help I suggested (personally) that some might have been the original. I have no
- (1) proof that either William or Stephen (either an official person) was traced in Mr. Edward, Stoneham. I'm quite sure the original Stone who was did live in P.E. My grand parents used to insist Stoneham told.
  2. I see no proof that Mary Fisher was wife of Richard but am quite certain and I'm not aware of him being married twice.
  3. It's only, in last 5 years I have anything of John Stone son of Stephen or Wm. When I came to live in Whiteby, by chance I found a tree already set up by a student of John's family. This premise, and all reason of the fact that the Stone came from Mr. Edward, Cockburn, Canada was married 3 times but never set me anywhere except to John Stone.

Dear Mr. Ware:

I have received your second letter which suggests that I proceed with investigation into the Ware origins. Thanks for your faith in me.

I must say that I feel that you are working on the wrong tree in your supposition that your family originates in that of William Ware, the Volunteer in the Indian Movement. This I hesitate to attempt to prove until you have given me further information. For this purpose, I request answers to these questions:

1. Have you any proof that Richard & John were sons of Mr. ? Or that Mr. lived in Prince St. George?
2. Have you proof that Mary Fisher was wife of Richard? Was she his first wife?
3. Have you proof that Catherine Garrick was wife of John? Was she his first wife?
4. Please supply me with the names, date or year of birth, and husband or wife of the children of Richard and of John.
5. Have you proof that Richard and John ever lived in Prince Rupert County?
6. Did you ever get photographs of land applications for Richard or John from the Public Archives?

I have certain information regarding some names of Indian Affairs, but, at present, they do not agree with that supplied by you. Something is wrong somewhere, and it can only be cleared up by your answer to the a/m questions.

Yours sincerely,

Dear Dr. Burleigh:

I have your letter of June 7  
and in reply would ask that you take on the  
task of getting <sup>early</sup> information on the HARE family.  
I presume that William Hare as recorded on  
the U. S. List, Home District, volunteer, Indian Dept.  
wife and 2 children, was the original.

My record shows as follows

William Hare 1748-1824 wife not known	{	Richard Hare 1777-1863 Mary Fisher 1752-1859	{ 11 children
		John Hare 1780- Catherine Carrick 1788	{ 4 children

I have no record of any more family than  
the two sons. Apparently William settled near  
Pictou. About 1855 Richard Hare <sup>son</sup> with a large  
family moved to Euphon and established the  
Hare community just west of Euphon.

John Hare left P.E. Co and moved to  
Chatham and became a foundry man.

That is about all information I can supply.  
I have a complete record of the two sons. This  
family now numbers about 400 people with  
their wives.

We have a Hare reunion at Euphon on  
July 17. I hope some information can be  
available. Let me know to meet your request  
for. I am yours truly Howard Hare

Dear Mr. H. H. D.

The D. S. H. H. D.

of the U. S. L. Memorial Church has advised  
me that you are an authority in relation to  
the U. S. L. group. I have traced the family  
since 1840 but seek further information as to  
which of the U. S. L. the Hanes (my family) comes from.  
The Archives at Ottawa list about 10 Hanes but so  
far as I can learn the original came to P. E. Co.  
and about 1840 moved to Gropion and then built  
the HANE community. Another son came to Dakota  
I have only the record of the two sons, Richard  
who settled at Gropion and John who settled at Dakota.

If you have or can give any information  
I'll be glad to compensate you for it.

The most likely father of the two sons Richard  
and John I feel was William Hane, Home district  
volunteer, Indian Dept, wife and 2 children as  
recorded in the U. S. L. at Ottawa.

Hoping I may get some encouragement  
from you I am yours sincerely

John & Richard Hare, whose farm ad-  
joins that of the Bermans, are sons  
of the old grantees of that name, & the last  
who owned land in Haldimand. There  
are two daughters of John & four sons of  
Richard all living in the township in  
good circumstances. Richard still  
lives in the old homestead.
